QUESTION NO: 1

Which three SDN solutions are often considered for the data center environment? (Choose three.)

A. cloud-based services

B. system-based switches and controller designed for both physical and virtual workloads with open API

C. IT outsourcing services

D. open source (such as Open Daylight)

E. software-only overlay (such as tunneling)

F. software-as-a-service

ANSWER: A B F

QUESTION NO: 2

Which statement about the BiDi optics for 40G connection is true?

A. BiDi optics is an industry standard and is supported in all 40G solutions.

B. BiDi optics are build into the Cisco Nexus 9300 Switch, while eliminates the cost for separate optics.

C. BiDi optics support 40G on low-cost copper cables.

D. BiDi optics support 40G on existing 10G MMF cables in the data center, which often eliminates the cost to rewire.

ANSWER: D

QUESTION NO: 3

Which three options are three benefits of Cisco Application Centric Infrastructure? (Choose three.)

A. Open architecture, OS, and ecosystem

B. Reduced complexity

C. SDN for wide-area-networking

D. In-memory database acceleration

E. Programmability and automation

F. Hosted software-as-a-service application

ANSWER: A B E

QUESTION NO: 4

Which customer initiative often leads to an ACI sales opportunity?

A. Application roll-out or upgrade

B. Storage consolidation

C. Security assessment

D. Business process outsourcing

ANSWER: A

QUESTION NO: 5

What is OpenFlow?

A. A protocol

B. An infrastructure management software

C. An application acceleration solution

D. A new approach to big data analytics

ANSWER: A

QUESTION NO: 6

Which two switch port count options are available on the Cisco Nexus 9300 Series Switch? (Choose two.)

A. 96 ports

B. 48 ports

C. 24 ports

D. 72 ports

E. 128 ports

ANSWER: A B

QUESTION NO: 7

Which three vendors have a hypervisor management solution that is supported by the ACI solution? (Choose three.)

A. VMware

B. Dell

C. IBM

D. Red Hat

E. HP

F. Microsoft

ANSWER: A D F

QUESTION NO: 8

Which two statements about the Cisco Nexus 9000 Switch operating system are true? (Choose two.)

A. Operates as a Cisco APIC during a Cisco APIC outage

B. Operates in NXOS mode without Cisco APIC

C. Operates in ACI mode with Cisco APIC

D. Operates in the same mode as the directly connected switch

ANSWER: B C

QUESTION NO: 9

Which OS modes are available on the Cisco Nexus 9000 Switch?

A. ACI or Data Center Interconnect mode

B. ACI or End Point Group mode

C. ACI or Automation mode

D. ACI or SON mode

E. ACI or Configuration mode

F. ACI or NXOS mode

ANSWER: F

QUESTION NO: 10

Which statement about the Cisco APIC is true?

A. It provides the application health score.

B. It provides a physical connectivity port to a legacy network

C. It stores the storage network profile.

D. It provides a test environment for applications.

ANSWER: A

Explanation:

APIC Features and Capabilities

•Centralized application-level policy engine for physical, virtual, and cloud infrastructures

•Detailed visibility, telemetry, and health scores by application and by tenant

•Designed around open standards and open APIs

•Robust implementation of multi-tenant security, quality of service (QoS), and high availability

•Integration with management systems such as VMware, Microsoft, and OpenStack
