QUESTION NO: 1

Which of the following is NOT true about setting the attribute `installLocation` to value "internalOnly"? (Choose two)

- A. The default behavior of installation of application is same as that of giving value "internalOnly" to the `installLocation` attribute.
- B. The application is installed on the internal device storage only.
- C. If there is no space on the internal memory then the application gets installed on the external storage and moves back to internal storage as soon as the space is available. This is default behavior.
- D. The application can be moved to external device storage if required.

ANSWER: C D

QUESTION NO: 2

Which of the following is true about the cache files made by an application? (Choose two)

- A. They are visible only to the application that created it.
- B. They are created at the following path `/data/data//cache/`
- C. They are created at the following path `/data//cache/`
- D. None are correct

ANSWER: A B

QUESTION NO: 3

Which of the following is NOT true about "TestOnly" attribute in tag?

- A. Indicates whether this application is only for testing purposes.
- B. If this attribute is set to true, the application can only be installed through adb.
- C. It may expose functionality or data outside of itself that would cause a security hole, but is useful for testing.
- D. It is system level attribute so it is included in manifest tag.

ANSWER: D

QUESTION NO: 4

Which permission listed below is a normal permission?

- A. It is placed inside application tag.
- B. Its value is the name of package inside which the activity that manages space exists.
- C. It is placed inside the activity tag
- D. The activity should also be declared with an activity tag.

ANSWER: B C

QUESTION NO: 6

grantUriPermission is the child element of which tag?

- A. <activity>
- B. <service>
- C. <provider>
- D. <receiver>

- A. Option A
- B. Option B
- C. Option C
- D. Option D

ANSWER: C

QUESTION NO: 7

Which of the following is to execute complex queries in SQLite database?

- A. SQLiteDatabase.query()
- B. SQLiteQueryBuilder
- C. SQLiteOpenHelper
- D. Both "SQLiteDatabase.query()" and "SQLiteQueryBuilder" are correct.

ANSWER: B

QUESTION NO: 8

Which of the following is not correct when executing the following line of code?

```
FileOutputStream fOut = openFileOutput("MyFile.txt", MODE_WORLD_READABLE);
```

- A. File "MyFile.txt" is created in internal memory of application.
- B. File created by this code is readable by other applications.
- C. File "MyFile.txt" is created in external memory.
- D. File "MyFile.txt" is created in internal memory.

ANSWER: C

QUESTION NO: 9

Which of the following is NOT true about "allowbackup" attribute of application tag? (Choose two)

- A. Its default value is true.
- B. If set to false then no backup or restore of the application will ever be performed.
- C. If full system backup is made the application's data is saved via adb. This is in system's control and occurs in all cases whether the allowbackup has value true or false.
- D. The default value of this attribute is false.

ANSWER: C D

QUESTION NO: 10
