#### **QUESTION NO: 1**

Which two differences exist between the timestamp and date time data types?

- A. timestamp has larger range of values.
- B. timestamp uses less storage space.
- C. timestamp stores more decimal points in seconds
- **D.** timestamp converts the value based on the session time zone.
- E. timestamp stores the interval between two dates.

#### ANSWER: B D

### **QUESTION NO: 2**

Examine these statements and output:

```
mysql> SET AUTOCOMMIT=on;
Query OK, 0 rows affected (0.01 sec)
mysql> UPDATE emp
   -> SET salary=24000
   -> WHERE id=101;
Query OK, 1 row affected (0.01 sec)
mysql> INSERT INTO EMP values (102,'John',13000,'jj',10);
Query OK, 1 row affected (0.00 sec)
mysql> SET AUTOCOMMIT=off;
Query OK, 0 rows affected (0.01 sec)
```

Now, examine this command:

Mysql> ROLLBACK;

What is true about the effect of the command?

- A. It undoes the update command.
- B. It returns an error because there is no active transaction.
- C. It undoes the insert command.
- D. It undoes both insert and update commands.
- E. It has no effect.

ANSWER: C

### **QUESTION NO: 3**

Examine these statements which execute successfully:

```
CREATE TABLE 'users'
'user id' int(11) NOT NULL AUTO INCREMENT,
'loc id' int(11) DEFAULT NULL,
'user_name' varchar(50) NOT NULL,
'user_static' int(11) NOT NULL DEFAULT '0'
PRIMARY KEY ('user id')
) ENGINE=InnoDB AUTO INCREMENT=4968107 DEFAULT CHARSET=1atin1
CREATE TABLE 'locations' (
'loc id' int(11) NOT NULL AUTO INCREMENT,
'site id' int(11) NOT NULL,
'loc_name' varchar(50) NOT NULL,
    shared' int(11) NOT NULL DEFAULT '0',
10C
'loc_mapping' char(36) NOT NULL,
PRIMARY KEY ('loc id')
) ENGINE=MEMORY AUTO INCREMENT=6835 DEFAULT CHARSET=latin1
SELECT
   loc.site id,
    loc.loc_shared,
   usr.user_name
FROM users usr
INNER JOIN locations loc
ON usr.loc id = loc.loc_id
WHERE
   loc.loc_mapping = 'daa9a225-8a4d-11ea-b3cf-00059a3c7a00'
```

Which two changes will improve this query performance?

- A. CREATE INDEX 1X7 ON users (user\_name) USING HASH;
- B. CREATE INDEX 1X4 ON Locations (site\_id, loc\_shared);
- C. CREATE INDEX IX1 ON locations (loc\_shareci) ;
- D. CREATE INDEX 1X6 ON users (user\_name);
- E. CREATE INDEX 1X3 ON locations
- F. CREATE INDEX 1X2 ON locations (loc\_mapping) USING HASH; fH
- G. CREATE INDEX 1X5 ON users (loc\_id);

ANSWER: A D

### **QUESTION NO: 4**

A server hosts MySQL Server and Apache Webserver supporting a PHP/PDO based application.

The application must be migrated from PHP to their Java application server on another host. The MySQL instance remains on the original host.

Examine the PDO connection string used in the existing application:

Mysql:host-localhost;dbname=sales;unix\_socket=/var/run/mysql.sock

Which two prevent Java from using the Unix socket?

- A. The X Dev API protocol must be enabled to use sockets in Connector/J driver.
- B. The socket is not implemented in Connector/J driver.
- C. The socket can only be accessed from the local host.
- **D.** socket is a reserved word in Java.
- **E.** Java treats the socket file as insecure.

### ANSWER: B E

### **QUESTION NO: 5**

Examine this statement and output:

mysql> CREATE TABLE tab (i int NOT NULL) ENGINE csv: ERROR 1 (HY000): Can't create/write to file './db0/tab\_402.sdi' (OS errno 13 -Permission denied)

What causes the error?

- A. The engine is disabled.
- B. The set local\_infile option has not been enabled.
- C. The database user does not have sufficient privilege.
- D. The database server process does not have sufficient privilege.
- E. The database client process does not have sufficient privilege.
- F. The database server is running in read-only mode.

### ANSWER: D

### **QUESTION NO: 6**

You must enforce data integrity for data Inserted in a JSON column.

Which statement successfully creates a constraint in a 3SON column?

A. CREATE TABLE fshop (product JSON CHECK (JSON\_VALID(product) ) );

B. CREATE TABLE fshop ( product JSON, f INT' GENERATED ALWAYS AS (product->"S - id") );

C. CREATE TABLE fshop (id INT NOT NULL AUTOINCREMENT, product JSON, PRIMARY KEY (id)) ENGINE=InnoDB;

D. CREATE TABLE fshop (id INT NOT NULL AUTO\_ INCREMENT, product JSON, CHECK (id>0) ) ENGXNE=InnoDB;

### ANSWER: C

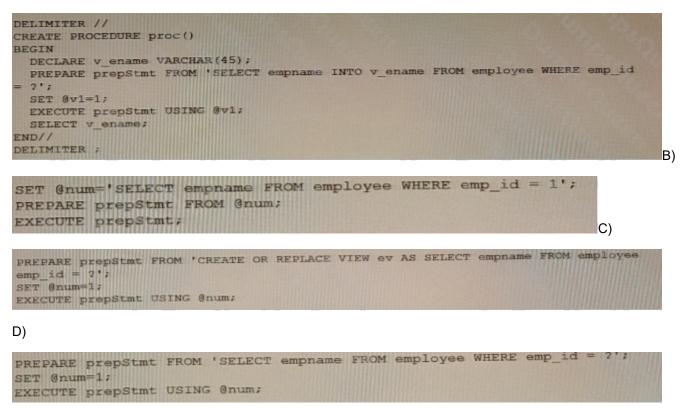

### **QUESTION NO: 7**

Examine the employee table structure:

Field	Туре	Null	Key	Default	Extra
emp id	int	I NO	PRI	NULL	
empname	varchar(45)	YES	CHARLES STR.	NULL	L. C. BARRA
dept id	int	YES	MUL.	NULL	Feel of Links
salary	int	YES		NULL	1

Which set of statements immediately returns empname for a given emp\_id by using a parameterized prepare statement?

A. Option A

- B. Option B
- C. Option C
- **D.** Option D

#### ANSWER: D

### **QUESTION NO: 8**

Examine this statement:

DECLARE not\_found CONDITION FOR SQLSTATE '02000';

- In which two statements can not found be used?
- A. in a leave statement to exit a loop
- B. in an if statement
- C. in a while loop
- D. in a handler declaration
- E. in a signal statement

### ANSWER: C E

### **QUESTION NO: 9**

Examine this statement which has executed successfully:

```
CREATE TABLE `film_text` (
   `film_id` smallint NOT NULL,
   `title` varchar(255) NOT NULL,
   `description` text,
   PRIMARY KEY (`film_id`),
   FULLTEXT KEY `description_idx` (`description`)
) ENGINE=InnoDE DEFAULT CHARSET=utf8mb4 COLLATE=utf8mb4_0900_ai_ci;
film_text Contains millions of rows.
Now, examine this statement:
   SELECT title
   FROM film_text
   WHERE description RLIKE "Scientist%";
```

- A. Execution performance can be improved by using like instead of RLIKE.
- **B.** The statement takes advantage of index description\_idx.

**C.** Execution performance can be improved by, using a composite index with column description as the leftmost prefix column description.

**D.** No index will improve statement performance.

E. Execution performance can be improved by adding an index on column description.

ANSWER: A

### **QUESTION NO: 10**

You must reclaim memory used by a prepared statement named prep. Which two achieve this?

- A. SET @a = "; EXECUTE prep USING @a;
- **B.** DEALLOCATE PREPARE prep?
- **C.** DROP PROCEDURE prep;
- **D.** SET @prep = NULL;
- E. DROP PREPARE prep;
- F. PREPARE prep FROM ";

#### ANSWER: C D
