QUESTION NO: 1

As shown in the figure, it is the encoding and parameter description of a hard disk. Which of the following items are correct to understand the parameter description of this hard disk?

Number	Description
02311SAE	Function Module,Servers,HDD,10TB,SATA 6Gbit,7.2K rpm,256x13.3 inch,3.5 inch DFI ve Bay)

- A. This hard drive can be used as an accessory in Huawei servers
- B. This hard drive belongs toHDD hard disk, the speed is 7200 rpm
- C. This makes the disk size3.5 The interface follows the SATA standard
- D. This hard drive supplier may come from WestJet, Western Digital or Toshiba

ANSWER: A B C D

QUESTION NO: 2

Which of the following solutions is adopted for the graphics card of the TaiShan server?

- A. No local display scheme, remote display is required
- B. Integrated iniBMC management chip
- C. Independent display card
- D. Need to be connectedPCIe expansion graphics card

ANSWER: D

QUESTION NO: 3

TaiShan 200 2280 power supply module, which of the following statements is correct?

- A. Need to guide customers to dual power supply configuration
- B. The power supply models in the same server must be the same
- C. Optional AC input and DC input

D. There are two types of AC power: 900W and 2000W

ANSWER: A B C D

QUESTION NO: 4

What are the related components of TaiShan server supporting WEB?

- A. Redis
- B. Nginx
C apache
- C. http server
- D. java software

ANSWER: A B C D

QUESTION NO: 5

Which of the following types of network cards are supported by Taishan200 series servers?

- A. Onboard network card
- B. PCIe expansion network card
- C. USB network card

ANSWER: A B

QUESTION NO: 6

The Kunpeng processor's multi-core architecture perfectly fits distributed parallel computing. In financial operation analysis scenarios, the offline query scenarios of big data are improved by 10%.

- A. True
- B. False

ANSWER: A

QUESTION NO: 7

The following is forls the understanding of OLTP and OLAP incorrect?

- A. OLTP has high requirements for storage IO latency
- B. ERP is a typical OLTP application
- C. Business analysis applications belong toOLTP business
- D. OLAP requires high CPU computing power and IO concurrency

ANSWER: C

QUESTION NO: 8

Compared with ordinary PC network cards, server network cards have the following characteristics?

- A. Low CPU usage
- B. High energy consumption ratio
- C. Transmission speed block
- D. High security

ANSWER: A C D

QUESTION NO: 9

TaiShan server iBMC chip is self-developed chip H1710.

- A. true
- B. false

ANSWER: A

QUESTION NO: 10

CPU performance and network bandwidth will affect HPC performance.

- A. True
- B. False

ANSWER: A
