QUESTION NO: 1

What is main difference between user experience and usability?

A. Usability relates to people's perceptions and responses; user experience relates to characteristics of the software product.

B. Usability is evaluated via reviews; the user experience is evaluated via surveys C. User experience relates to people's perceptions and responses; usability relates to characteristics of the software product.

C. There is no difference between user experience and usability, they are the same.

ANSWER: C

QUESTION NO: 2

When preparing test cases for an interoperability test, not all interactions may be clearly specified in the requirements documents. Which type of document is typically also used by a Test Analyst as the test basis for interoperability testing?

A. User stories

B. Functional specifications

C. Component specifications

D. System architecture document

ANSWER: B

QUESTION NO: 3

company in the medical domain has adopted methodical testing as its preferred test strategy Before being able to release to the market an external audit on the test process is mandatory. The test team consists of a mix of highly experienced domain-based testers and junior testers who only recently joined the company.

What is the BEST option regarding the level of detail and documentation required for test cases in the project?

A. Low-level test cases since this will support both the external audit and the new junior testers.

B. High-level test cases since this is consistent with the chosen test strategy

C. Low-level test cases since it will make the process more effective and it will make the best use of the knowledge and skills of the experienced domain testers.

D. High-level test cases since it will make the process more effective and it will make the best use of the knowledge and skills of the experienced Idomain testers.

ANSWER: D

QUESTION NO: 4

Ken finds the quality of the tea locally available to be so low, that he decides to research superior teas around the world. He decides to market, sell and distribute these superior teas via the web. His marketing strategy is to offer superior products on a well-designed website that has fast loading graphics, high availability, superior usability and fast response times. The website will offer the following:

- An innovative interactive catalogue of teas, which not only enables customers to buy theproduct, but also enables them to provide feedback by rating the teas (which will influence his stock purchasing levels).

- Provide the customer with the ability to use secure credit card transactions.

- Provide the customer with the ability to give general feedback.

Ken selects an iterative model for the development of the prototypes. The team consists of three developers who are experienced in web development Ken, although he doesn't have a technical skillset, is concerned with quality. He doesn't believe a lot of documentation is necessary and he wants the website to be completed quickly. The test basis contains the following:

- Story boards that show the information flow and page links through the site.

- HTML pages developed to date

- A set of non-functional requirements.

With the strategy taking shape, it is decided that exploratory testing should be used to complete the required testing, bearing in mind the nature of the application and the nature of Ken's overall objectives. You have now been given the task of identifying the exploratory tests, which will be executed as test sessions.

Which of the options below state what you will typically use for identifying the exploratory tests?

A. Apply equivalence partitioning and boundary value analysis using the storyboard ideas as a basis to maximise functional coverage

B. Use external testers on the team to provide a new approach and fresh view to the testing effort

C. Create test chatters to be used to guide the testing

D. Define low-level test cases to be executed by the end users.

ANSWER: D

QUESTION NO: 5

DUMPSQUEEN

Consider the following scenario for a metro fare system:

If you take the metro before 9:30 am or in the afternoon between 5:00 pm until 7:00 pm, you must pay full fare A saver ticket is available for metro rides between 9:30 am and 5:00 pm [both inclusive], and after 7:00 pm.

Which off the following test sets will provide the best equivalence partitioning coverage?

A. 9:29 am, 5 01 pm, 7:30 pm, 7:31 pm, 8:00 pm

B. 9:30 am, 4:00 pm, 6:00 pm, 8 00 pm, 8:30 pm

C. 8:00 am, 10:00 am, 5:15 pm, 7:01 pm, 11:00 pm

D. 9:30 am, 9:31 am, 4:59 pm, 5:00 pm, 8:00 pm

ANSWER: B
