QUESTION NO: 1

The basic principle of infrared heaters is that infrared rays heat water to boiling, thereby generating steam.

- A. True
- B. False

ANSWER: B

QUESTION NO: 2

The humidifier used in Huawei's row-level precision air conditioner is an infrared humidifier.

- A. True
- B. False

ANSWER: B

QUESTION NO: 3

High sensible heat ratio is the only difference between precision air conditioners and civil air conditioners.

- A. True
- B. False

ANSWER: B

QUESTION NO: 4

The fuse can protect personal safety when the equipment leaks.

- A. True

B. False

ANSWER: B

QUESTION NO: 5

The following are interfaces:\.

- A. DB25
- B. RJ12
- C. modbus
- D. snmp

ANSWER: A B

QUESTION NO: 6

Under the same load conditions,ups The backup time is mainly determined by the battery capacity and the number of battery cells. The larger the battery capacity, the longer the backup time.

- A. True
- B. False

ANSWER: A

QUESTION NO: 7

The following Does the model of air conditioner have an oil separator?

- A. NetCol5000-A25kW
- B. NetCol5000-A35kW
- C. NetCol8000-A50kW
- D. NetCol5000-C30kW

ANSWER: A B

QUESTION NO: 8

The following is for high frequency ups The correct description of the rectifier components is.

- A. Complete AC to DC conversion
- B. Complete DC to AC conversion
- C. Realize power factor correction and pressure reduction function
- D. Realize power factor correction and boost function

ANSWER: A D

QUESTION NO: 9

In the data center power supply and distribution system, the low-voltage circuit breaker with three-stage protection feature is used for.

- A. Prevent branch circuit short circuit caused by branch circuit overload
- B. Prevent the main circuit from being overloaded due to the short circuit of the branch circuit
- C. Prevent the main circuit from breaking due to branch circuit breaking
- D. Prevent the main circuit from breaking due to a short circuit in the branch circuit

ANSWER: B D

QUESTION NO: 10

The basic principle of the rotary dehumidifier is that the water vapor encounters the condensation water droplets of the cooling tube fins to dehumidify.

- A. True
- B. False

ANSWER: B

QUESTION NO: 11

CLF Defined as the power consumption of data center cooling equipment and IT The ratio of equipment power consumption.

- A. True
- B. False

ANSWER: A

QUESTION NO: 12

The function of the fire-fighting system is to automatically capture the smoke or heat in the fire detection area when a fire occurs, so as to issue an audible and visual alarm and automatically extinguish the fire.

- A. True
- B. False

ANSWER: A

QUESTION NO: 13

The following () options belong to water-cooled chilled water air conditioners. (Multiple choice)

- A. No need to install a cooling tower
- B. Only for small data centers
- C. need to install a cooling tower
- D. Suitable for medium and large data centers

ANSWER: C D

QUESTION NO: 14

The following air conditioners do not need to install cooling towers.

- A. Air-cooled direct expansion air conditioner
- B. Water-cooled air conditioner

- C. Air-cooled chilled water air conditioner
- D. Water-cooled chilled water air conditioner

ANSWER: A C
