ANSWER: A

QUESTION NO: 3

A company orders and receives a case containing 36 light bulbs which are issued one at a time. What is created for this relationship?

A. Multiplier

B. Issue Unit

C. Issue Type

D. Conversion

ANSWER: B

Explanation:

You order light bulbs in bulk and the unit of measure is a case, with a quantity received of 36. However, when you issue the item, you issue it one at a time. In this case, you can define a measure unit of CASE and another measure unit of EACH. You define a conversion ratio from CASE to EACH with a factor of 36. When you receive an order of bulbs into a storeroom, the received order unit of one CASE is converted into the storeroom issue unit of 36 EACH.
