QUESTION NO: 6

During an incident, the following actions have been taken:

- Executing the malware in a sandbox environment
- Reverse engineering the malware
- Conducting a behavior analysis

Based on the steps presented, which of the following incident handling processes has been taken?

- A. Containment
- B. Eradication
- C. Recovery
- D. Identification

ANSWER: A

Explanation:

The “Containment, eradication and recovery” phase is the period in which incident response team tries to contain the incident and, if necessary, recover from it (restore any affected resources, data and/or processes).
