| Topic 3, Exam Pool C | 257 |
| Total | 654 |

QUESTION NO: 1

The following functions belong to the FusionModule2000 controller (ECC800)

- A. Alarm system linkage
- B. Alarm Management
- C. Access Control

ANSWER: A B C

QUESTION NO: 2

Why are FusionModule500&FusionModule800 generally recommended to customers for typical configuration solutions? (Multiple choices)

- A. The existing typical configuration scheme can basically cover most of the small computer room usage scenarios
- B. The typical configuration solution has a shorter lead time than the customized solution
- C. Typical configuration solutions are better than customized solutions
- D. Typical solutions are more competitive

ANSWER: A B C D

QUESTION NO: 3

UPS2000-G-(6K--20K) Regarding the optional output isolation transformer, the following statements are correct ().

- A. Can be connected to output isolation transformer
- B. Can be used as input isolation transformer
- C. It can convert one-way 220V into two-way 110V
- D. Can convert 50Hz to 60Hz Output

ANSWER: A C

QUESTION NO: 4

What functions does the iCooling feature of FusionModule2000 V3.0 include? ()

- A. AI self-optimization algorithm, air conditioner saves 8% of energy
- B. Temperature cloud map and air conditioning linkage
- C. Refrigerant capacity alarm function
- D. Refrigeration system visibility

ANSWER: A B C D

QUESTION NO: 5

UPS5000-A about the characteristics of intelligence, which are correct?

- A. The NetEco monitoring software of UPS5000-A supports SMS or E-mail remote alarm
- B. Support NetEco monitoring software, support centralized monitoring of UPS
- C. Support battery intelligent management, effectively prolong battery life

ANSWER: A B C

QUESTION NO: 6

A system is configured with 15min battery backup time, and the discharge termination voltage of the battery cell should be selected (). /

- A. 1.75V
- B. 1.80V
- C. 1.67VD .1.60V

ANSWER: C

QUESTION NO: 7

The PDU8000 precision power distribution cabinet adopts a 7-inch liquid color touch screen, which can graphically display the system diagram of the power distribution cabinet and the status of each switch.

- A. True
- B. False

ANSWER: A

QUESTION NO: 9

The NetEco6000 management system can use Huawei eSpace VCN500 products to realize video storage: Can one VCN500 product be connected to () cameras?

- A. 32
- B. 64
- C. 128
- D. 256

ANSWER: A

QUESTION NO: 10

UPS5000-A 30~120kVA can be installed against the wall.

- A. True
- B. False

ANSWER: B

QUESTION NO: 11

FusionModule1000A V2R3 version can be customized bulletproof shell

- A. True
- B. False

ANSWER: A

QUESTION NO: 12

What does the DN in DN50 mean?

- A. The inner diameter of the tube
- B. The outer diameter of the tube
- C. Nominal Radius of Tube
- D. Nominal diameter of pipe

ANSWER: D

QUESTION NO: 13

NetCol5000-A025H Half-cabinet in-row air-cooled inverter precision air conditioner can match the outdoor unit model and adaptable temperature range: ().(Multiple choice)

- A. NetCol500-A026 (-20~45C)
- B. NetCol500-A032 (-40~45C need to bring low temperature components)
- C. NetCol500-A036 (-20~55C)
- D. NetCol500-A072 (-40~45C)

ANSWER: B C

QUESTION NO: 14

The NetEco6000 management system can provide the following access control card readers for installation on the door of the computer room? (Multiple choices)

- A. IC card reader
- B. Swipe PIN Reader
- C. Swipe fingerprint reader
- D. Swipe card password fingerprint reader

ANSWER: A B C D

QUESTION NO: 15

The smoke sensor used in the NetEco6000 management system cannot replace the smoke sensor in the fire protection system. ().

- A. True
- B. False

ANSWER: A

QUESTION NO: 16

UPS5000-E (25- 75kVA) integrated cabinet includes () ? (multiple choice)

- A. Input switch
- B. Output switch
- C. Battery switch
- D. Maintenance Bypass Switch

ANSWER: A B C D

QUESTION NO: 17

One card of UPS2000-G monitors the entire parallel system, and the parallel system only needs one communication option card to monitor the entire parallel system

- A. True
- B. False

ANSWER: A

QUESTION NO: 18

Functions that can be achieved by modular UPS: ()

- A. Online hot-swappable
- B. Can be expanded online
- C. Single machine can realize N+X redundant configuration
- D. Unit price can achieve 2N redundant configuration

ANSWER: A B C

QUESTION NO: 19

UPS5000-E 100KVA, the input switch to be selected by the machine, which of the following is the most suitable ()

- A. 80A
- B. 125A
- C. 160A
- D. 200A

ANSWER: D

QUESTION NO: 20

What kind of circuit breaker is used in the main circuit of PDU8000 precision power distribution cabinet: ().

- A. Molded case circuit breaker
- B. Miniature circuit breakers
- C. Frame Breaker
- D. Disconnect switch.

ANSWER: A
